EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert H. Berdo on 18 December 2007.

The application has been amended as follows: In claim 1, line 3 change "the common" to "a common" and change "the cold" to "cold".

2. The following is an examiner's statement of reasons for allowance: The reasons for allowance are that the closest prior art, U.S. patent no. 4,316,725 to Hovind et al. describes a vacuum pump connected to the top of a water tank and nozzles in the water tank. The closest prior art does not describe the combination of features as described in applicant's claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
